

Free Opportunity Assessment™

Compliance Networks is not your typical supply chain systems vendor. Instead we provide solutions that bring measurable, ongoing, and reliable profitability for the entire supply chain. Our extensive experience in retail, manufacturing, and military supply chains offers our customers unparalleled expertise and thought leadership. Our pathway to real partnership is understanding future business partner's objectives while ensuring value-driven alignment. This is why even prospective customers realize real value just by participating in our sales process.

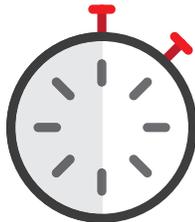

Diagnosis

Just like your family doctor Compliance Networks follows an effective three-step approach. During your Opportunity Assessment Survey™ (OAS): we examine, we question, we listen. What's different about us? We come to you...and it's free. How many doctors make free house calls today?

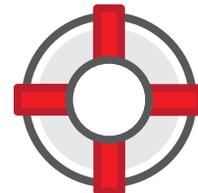

Pain-Free

Unlike some doctor visits, our tests are pain free. We realize that downtime is costly. Compliance Networks deploys solutions without interrupting current operations and forcing unnecessary change. It is an opportunity for us to listen, learn and share; and we promise not to fix anything that isn't broken.

Rapid Time-to-Benefits

Within weeks, we present our findings via the Opportunity Assessment Presentation™ (OAP). This 2-3 hour session includes areas for improvement, areas of excellence, opportunities, recommendations for next steps. Solution recommendations include: process, people, and technology. Just like our solutions, benefits are realized quickly.

Risk Free

Compliance Networks focuses on building productive long-term partnerships. Quick fixes and unrealistic metrics are not in the best interest of anyone. We leverage our broad success from vendors, distribution, IT and operations to recommend and deploy proven solutions to improve your supply chain challenges.

Opportunity Assessment™

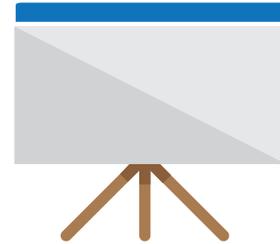

Opportunity Assessment Survey™

The survey generally takes a day or two to complete and includes reviews of your current processes including:

- Vendor compliance
- Supply chain visibility
- Vendor performance
- Receiving / transportation
- EDI compliance
- Accounts payable / information technology

Our survey also includes interviews of key personnel within the organization, along with an analysis of the current vendor supplier / supplier requirements. Finally, we include a leave-behind financial benchmarking survey for your immediate review.

Opportunity Assessment Presentation™

The results of the survey include a presentation of findings that are focused on the following key areas:

- Review of current vendor compliance practices
- Areas of high-quality performance
- Areas of opportunity
- Economic Impact of supply chain improvements
- Industry best practices
- Benchmarking against similar businesses

The presentation takes approximately two to three hours and includes a summary of the survey findings as well as an overview of the Compliance Networks solution.

Schedule Today

Compliance Networks knows that no other process improvement solution will bring faster bottom-line results. Email info@compliancenetWORKS.com to schedule today!

Our proven, successful track record of supply chain improvement makes it easy for us to offer the survey and presentation of the Opportunity Assessment™ at no cost to prospective business partners. Beyond the survey, Compliance Networks is also available for additional vendor compliance and supply chain consulting beyond the presentation phase.
